DAILY REGISTER

For school year beginning _____ 191__ and ending _____ 191__

_____ District No. _____, _____ Township,

_____ County.

_____ taught _____ months from _____ to _____ at \$ _____ per month

_____ taught _____ months from _____ to _____ at \$ _____ per month

_____ taught _____ months from _____ to _____ at \$ _____ per month

IMPORTANT

This register is expected to serve the room in which it is used for one school year ONLY.

If the school is taught for the entire year by the same teacher the Register with the required annual Report should be delivered into the hands of the proper school officer at the close of the school year and such officer should closely inspect both the Register and the Report and see that all entries are correctly made before issuing the order for the teacher's salary then due.

If two or more teachers are employed, the Register (and a term report if such is required) should be delivered into the hands of the proper school officer by each teacher in turn at the close of her term of school and such officer should see that all entries are made to date before issuing the order for the teacher's salary then due.

The teacher in office at the close of the school year should file a complete report for the entire school year, using the blank form furnished for that purpose.

EXPLANATION

By referring to the illustration on the left hand page it will be observed that John Doe is 8 years old, that he entered school on the morning of Monday, Sept. 11th, that he was absent all day Thursday of the first week and all day Wednesday of the second week. He was tardy Monday forenoon and Friday afternoon of the fourth week. The summary for the first month shows, therefore, that he was present 18 days, was absent two days and was tardy twice.

Looking to the second week of the third month the record shows that John Doe was temporarily dropped after three consecutive days absence. On Wednesday morning of the first week of the fourth month he was readmitted. It will be observed that for the last 12 days of the third month and the first two days of the fourth month he was not considered a member of the school.

On the right hand page will be found the record of John Doe's scholastic standing each month, followed on the same page by a graphic showing of his classification. For example, in Writing and Arithmetic he is shown to be in the fifth year or grade, while in the other subjects studied he was in the fourth year or grade.
